EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Samuel K. Simpson on 2/4/2005.

The application has been amended as follows:

Claims 11-13 have been cancelled.

In claim 1, at line 10, after 'the plurality of heat exchanger elements', "being connected by a connecting tube" has been deleted and -- including a first set of heat exchanger elements connected by a first connecting tube and a second set of heat exchanger element connected by a second connecting tube-- has been inserted.

In claim 1, at line 2, after 'the longitudinal length of', "the connecting tube" has been deleted and -- each of the connecting tubes-- has been inserted.

Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art either taken singularly or in combination fails to disclose a plurality of heat exchanger elements within a casing having a shape that provides between each of the plurality of heat exchanger elements and the body surface a flow gap for flow of heat transfer fluid between the periphery of the

elements and the body surface in heat transfer contact with the body surface, the plurality of heat exchanger elements including a first set of heat exchanger elements connected by a first connecting tube and a second set of heat exchange element connected by a second connecting tube, the longitudinal length of each of the connecting tubes being less than the longitudinal length of each of the heat exchanger elements. The new added limitation is fully supported by the original disclosure shown in figure 1. Schimion is the most relevant art but fails to show the first and second connecting tubes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
